WHY IS PUBLIC TRUST IN PFIZER CRUMBLING?

As Booster Shots Dramatically Decline, Will Pfizer Collapse?

New Whistleblower Tip Lines Established for Pfizer Employees

Switzerland, Denmark, and Canada Have All Recommended Against Pfizer COVID-19 Vaccine for Healthy Children

BOSTON, MA - A new global campaign named Whistle for Humanity announced today encouraging Pfizer employees to anonymously leak any documents or provide evidence that leads to the prosecution of corporate officers responsible for the increase of excess death attributed to the COVID-19 vaccine. The campaign is mobilizing local communities and faith leaders nationwide to establish prayer circles at Pfizer. Pfizer employees need to stop condoning the Criminal Behavior of their company.

The campaign is housed on https://rumble.com/user/L4Atv1

Recent peer-reviewed, published studies have revealed that the tissue of many of those who died following the COVID-19 vaccines were rife with spike protein leading directly back to the vaccine.

The campaign provides options for whistleblowers to securely share confidential information and material as well as access to attorneys that offer legal counsel.

According to activist Glen Macko "Pfizer has no moral compass."

"Several highly visible professionals in the Pharma industry have documented Pfizer's Intent-to-Harm and kill with the COVID-19 Vaccines and their total avoidance of all SAFETY signals."
